resident alien. B needs funds temporarily while she is starting up her own business. If FT were to loan money directly to B, section 643(i) would apply. FT deposits 500X with FB, a foreign bank, on June 30, 2001. On July 1, 2001, FB loans 400X to B. Repayment of the loan is guaranteed by FT's 500X deposit. B is unable to demonstrate to the satisfaction of the Commissioner that FB has a relationship with B that establishes a reasonable basis for concluding that FB would make a loan to B or that FB acted independently of A and the trustee of FT in making the loan. Under paragraph (a)(2) of this section, FT is deemed to have loaned 400X directly to B on July 1, 2001. Under paragraph (c)(1) of this section, FB is treated as an agent of FT. For the treatment of loans from foreign trusts, see section 643(i).

Example 7. United States person demonstrates that specified conditions are satisfied. GM, a nonresident alien, created and funded FT for the benefit of her children and their descendants. One of GM's children is M, who is a resident alien. During the year 2001, FT makes a gratuitous transfer of 500X to M. M reports the 500X on Form 3520 as a distribution received from a foreign trust. During the year 2002, M makes a gratuitous transfer of 400X to her son, S, who also is a resident alien. M files a Form 709 treating the gratuitous transfer to S as a gift. Based on this and additional information provided by S, S demonstrates to the satisfaction of the Commissioner that M has a relationship with S that establishes a reasonable basis for concluding that M would make a gratuitous transfer to S, that M acted independently of GM and the trustee of FT, and that M is not an agent of S under generally applicable United States agency principles. FT will not be deemed under paragraph (a)(2) of this section to have made a distribution to S.M

Example 8. Intermediary as agent of trust; increase in FMV. A, a nonresident alien, created and funded FT for the benefit of his children and their descendants. On December 1, 2001, FT makes a gratuitous transfer of XYZ stock with a fair market value of 85X to B, a nonresident alien. On November 1, 2002, B sells the XYZ stock to a third party in an arm's length transaction for 100X in cash. On November 1, 2002, B makes a gratuitous transfer of 98X to A's grandson, C, a resident alien. C is unable to demonstrate to the satisfaction of the Commissioner that B acted independently of A and the trustee of FT in making the transfer. Under paragraph (a)(2) of this section, FT is deemed to have made a distribution directly to C. Under paragraph (c)(1) of this section, B is treated as an agent of FT, and FT is deemed to have distributed 98X to C on November 1, 2002.

Example 9. Intermediary as agent of United States person; increase in FMV. Assume the same facts as in *Example 8*, except that the Commissioner determines that B is an agent

of C under generally applicable United States agency principles. Under paragraph (c)(2) of this section, FT is deemed to have distributed 85X to C on December 1, 2001. C must take the gain of 15X into account in the year 2002.

Example 10. Intermediary as agent of trust; decrease in FMV. Assume the same facts as in *Example 8*, except that the value of the XYZ stock on November 1, 2002, is only 80X. Instead of selling the XYZ stock to a third party and transferring cash to C, B transfers the XYZ stock to C in a gratuitous transfer. Under paragraph (c)(1) of this section, FT is deemed to have distributed XYZ stock with a value of 80X to C on November 1, 2002.

Example 11. Intermediary as agent of United States person; decrease in FMV. Assume the same facts as in *Example 10*, except that the Commissioner determines that B is an agent of C under generally applicable United States agency principles. Under paragraph (c)(2) of this section, FT is deemed to have distributed XYZ stock with a value of 85X to C on December 1, 2001.

(h) *Effective date.* The rules of this section are applicable to transfers made to United States persons after August 10, 1999.

[T.D. 8831, 64 FR 43272, Aug. 10, 1999, as amended by T.D. 8890, 65 FR 41332, July 5, 2000]

POOLED INCOME FUND ACTUARIAL TABLES APPLICABLE BEFORE MAY 1, 2009

§ 1.642(c)–6A Valuation of charitable remainder interests for which the valuation date is before May 1, 2009.

(a) *Valuation of charitable remainder interests for which the valuation date is before January 1, 1952.* There was no provision for the qualification of pooled income funds under section 642 until 1969. See § 20.2031–7A(a) of this chapter (Estate Tax Regulations) for the determination of the present value of a charitable remainder interest created before January 1, 1952.

(b) *Valuation of charitable remainder interests for which the valuation date is after December 31, 1951, and before January 1, 1971.* No charitable deduction is allowable for a transfer to a pooled income fund for which the valuation date is after the effective dates of the Tax Reform Act of 1969 unless the pooled income fund meets the requirements of section 642(c)(5). See § 20.2031–7A(b) of this chapter (Estate Tax Regulations) for the determination of the present

value of a charitable remainder interest for which the valuation date is after December 31, 1951, and before January 1, 1971.

(c) *Present value of remainder interest in the case of transfers to pooled income funds for which the valuation date is after December 31, 1970, and before December 1, 1983.* For the determination of the present value of a remainder interest in property transferred to a pooled income fund for which the valuation date is after December 31, 1970, and before December 1, 1983, see § 20.2031–7A(c) of this chapter (Estate Tax Regulations) and former § 1.642(c)–6(e) (as contained in the 26 CFR part 1 edition revised as of April 1, 1994).

(d) *Present value of remainder interest dependent on the termination of one life in the case of transfers to pooled income funds made after November 30, 1983, for which the valuation date is before May 1, 1989*—(1) *In general.* For transfers to pooled income funds made after November 30, 1983, for which the valuation date is before May 1, 1989, the present value of the remainder interest at the time of the transfer of property to the fund is determined by computing the present value (at the time of the transfer) of the life income interest in the transferred property (as determined under paragraph (d)(2) of this section) and subtracting that value from the fair market value of the transferred property on the valuation date. The present value of a remainder interest that is dependent on the termination of the life of one individual is computed by use of Table G in paragraph (d)(4) of this section. For purposes of the computation under this section, the age of an individual is to be taken as the age of the individual at the individual's nearest birthday.

(2) *Present value of life income interest.* The present value of the life income interest in property transferred to a pooled income fund shall be computed on the basis of:

(i) Life contingencies determined from the values of *lx* that are set forth in Table LN of § 20.2031–7A(d)(6) of this chapter (Estate Tax Regulations); and

(ii) Discount at a rate of interest, compounded annually, equal to the highest yearly rate of return of the pooled income fund for the 3 taxable years immediately preceding its taxable year in which the transfer of property to the fund is made. For purposes of this paragraph (d)(2), the yearly rate of return of a pooled income fund is determined as provided in § 1.642(c)–6(c) unless the highest yearly rate of return is deemed to be 9 percent. For purposes of this paragraph (d)(2), the first taxable year of a pooled income fund is considered a taxable year even though the taxable year consists of less than 12 months. However, appropriate adjustments must be made to annualize the rate of return earned by the fund for that period. Where it appears from the facts and circumstances that the highest yearly rate of return for the 3 taxable years immediately preceding the taxable year in which the transfer of property is made has been purposely manipulated to be substantially less than the rate of return that would otherwise be reasonably anticipated with the purpose of obtaining an excessive charitable deduction, that rate of return may not be used. In that case, the highest yearly rate of return of the fund is determined by treating the fund as a pooled income fund that has been in existence for less than 3 preceding taxable years. If a pooled income fund has been in existence less than 3 taxable years immediately preceding the taxable year in which the transfer of property to the fund is made, the highest yearly rate of return is deemed to be 9 percent.

(3) *Computation of value of remainder interest.* The factor which is used in determining the present value of the remainder interest is the factor under the appropriate yearly rate of return in column (2) of Table G opposite the number in column (1) which corresponds to the age of the individual upon whose life the value of the remainder interest is based. If the yearly rate of return is a percentage which is between yearly rates of return for which factors are provided in Table G, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying, by the factor determined under this paragraph (d)(3), the fair market value on the appropriate valuation date. If the yearly rate of return is below 2.2 percent or above 14 percent, see § 1.642(c)–

81

6(b). This paragraph (d)(3) may be illustrated by the following example:

Example. A, who will be 50 years old on April 15, 1985, transfers $100,000 to a pooled income fund on January 1, 1985, and retains a life income interest in such property. The highest yearly rate of return earned by the fund for its 3 preceding taxable years is 9.9 percent. In Table G the figure in column (2) opposite 50 years under 9.8 percent is .15653 and under 10 percent is .15257. The present value of the remainder interest is $15,455, computed as follows:

Factor at 9.8 percent for person aged 50	.15653
Factor at 10 percent for person aged 50	.15257
Difference	.00396

Interpolation adjustment:

$$\frac{9.9\% - 9.8\%}{.2\%} = \frac{x}{.00396}$$

Factor at 9.8 percent for person aged 50	0.15653
Less:	
Interpolation adjustment	.00198
Interpolated factor	.15455

Present value of remainder interest ($100,000×.15455)	$15,455

(4) *Actuarial tables.* The following tables shall be used in the application of the provisions of this section.

(e) *Present value of the remainder interest in the case of transfers to pooled income funds for which the valuation date is after April 30, 1989, and before May 1, 1999*—(1) *In general.* In the case of transfers to pooled income funds for which the valuation date is after April 30, 1989, and before May 1, 1999, the present value of a remainder interest is determined under this section. See, however, §1.7520–3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). The present value of a remainder interest that is dependent on the termination of the life of one individual is computed by the use of Table S in paragraph (e)(5) of this section. For purposes of the computations under this section, the age of an individual is the age at the individual's nearest birthday. If the valuation date of a transfer to a pooled income fund is after April 30, 1989, and before June 10, 1994, a transferor can rely on Notice 89–24, 1989–1 C.B. 660, or Notice 89–60, 1989–1 C.B. 700, in valuing the transferred interest. (See §601.601(d)(2)(ii)(*b*) of this chapter.)

(2) *Present value of a remainder interest.* The present value of a remainder interest in property transferred to a pooled income fund is computed on the basis of—

(i) Life contingencies determined from the values of *lx* that are set forth in Table 80CNSMT in §20.2031–7A(e)(4) of this chapter (Estate Tax Regulations); and

(ii) Discount at a rate of interest, compounded annually, equal to the highest yearly rate of return of the pooled income fund for the 3 taxable years immediately preceding its taxable year in which the transfer of property to the fund is made. The provisions of §1.642(c)-6(c) apply for determining the yearly rate of return. However, where the taxable year is less than 12 months, the provisions of §1.642(c)-6(e)(3)(ii) apply for the determining the yearly rate of return.

(3) *Pooled income funds in existence less than 3 taxable years.* The provisions of §1.642(c)-6(e)(4) apply for determining the highest yearly rate of return when the pooled income fund has been in existence less than three taxable years.

(4) *Computation of value of remainder interest.* The factor that is used in determining the present value of a remainder interest that is dependent on the termination of the life of one individual is the factor from Table S in paragraph (e)(5) of this section under the appropriate yearly rate of return opposite the number that corresponds to the age of the individual upon whose life the value of the remainder interest is based. Table S in paragraph (e)(5) of this section includes factors for yearly rates of return from 4.2 to 14 percent. Many actuarial factors not contained in Table S in paragraph (e)(5) of this section are contained in Table S in Internal Revenue Service Publication 1457, ''Actuarial Values, Alpha Volume,'' (8–89). Publication 1457 is no longer available for purchase from the Superintendent of Documents, United States Government Printing Office, Washington, DC 20402. However, pertinent factors in this publication may be obtained by a written request to: CC:DOM:CORP:R (IRS Publication 1457), room 5226, Internal Revenue Service, POB 7604, Ben Franklin Station, Washington, DC 20044. For other situations, see §1.642(c)-6(b). If the yearly rate of return is a percentage

that is between the yearly rates of return for which factors are provided, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the fair market value of the property on the valuation date by the appropriate remainder factor. For an example of a computation of the present value of a remainder interest requiring a linear interpolation adjustment, see §1.642(c)-6(e)(5).

(5) *Actuarial tables.* In the case of transfers for which the valuation date is after April 30, 1989, and before May 1, 1999, the present value of a remainder interest dependent on the termination of one life in the case of a transfer to a pooled income fund is determined by use of the following tables:

TABLE S—BASED ON LIFE TABLE 80CNSMT SINGLE LIFE REMAINDER FACTORS

(f) *Present value of the remainder interest in the case of transfers to pooled income funds for which the valuation date is after April 30, 1999, and before May 1, 2009*—(1) *In general.* In the case of transfers to pooled income funds for which the valuation date is after April 30, 1999, and before May 1, 2009, the present value of a remainder interest is determined under this section. See, however, §1.7520–3(b) (relating to exceptions to the use of prescribed tables under certain circumstances). The present value of a remainder interest that is dependent on the termination of the life of one individual is computed by the use of Table S in paragraph (f)(6) of this section. For purposes of the computations under this section, the age of an individual is the age at the individual's nearest birthday.

(2) *Transitional rules for valuation of transfers to pooled income funds.* (i) For purposes of sections 2055, 2106, or 2624, if on May 1, 1999, the decedent was mentally incompetent so that the disposition of the property could not be changed, and the decedent died after April 30, 1999, without having regained competency to dispose of the decedent's property, or the decedent died within 90 days of the date that the decedent first regained competency after April 30, 1999, the present value of a remainder interest is determined as if the valuation date with respect to the decedent's gross estate is either before

May 1, 1999, or after April 30, 1999, at the option of the decedent's executor.

(ii) For purposes of sections 170, 2055, 2106, 2522, or 2624, in the case of transfers to a pooled income fund for which the valuation date is after April 30, 1999, and before July 1, 1999, the present value of the remainder interest under this section is determined by use of the section 7520 interest rate for the month in which the valuation date occurs (see §§ 1.7520–1(b) and 1.7520–2(a)(2)) and the appropriate actuarial tables under either paragraph (e)(5) or (f)(6) of this section, at the option of the donor or the decedent's executor, as the case may be.

(iii) For purposes of paragraphs (f)(2)(i) and (f)(2)(ii) of this section, where the donor or decedent's executor is given the option to use the appropriate actuarial tables under either paragraph (e)(5) or (f)(6) of this section, the donor or decedent's executor must use the same actuarial table with respect to each individual transaction and with respect to all transfers occurring on the valuation date (for example, gift and income tax charitable deductions with respect to the same transfer must be determined based on the same tables, and all assets includible in the gross estate and/or estate tax deductions claimed must be valued based on the same tables).

(3) *Present value of a remainder interest.* The present value of a remainder interest in property transferred to a pooled income fund is computed on the basis of—

(i) Life contingencies determined from the values of lx that are set forth in Table 90CM in § 20.2031–7A(f)(4); and

(ii) Discount at a rate of interest, compounded annually, equal to the highest yearly rate of return of the pooled income fund for the 3 taxable years immediately preceding its taxable year in which the transfer of property to the fund is made. The provisions of § 1.642(c)–6(c) apply for determining the yearly rate of return. However, where the taxable year is less than 12 months, the provisions of § 1.642(c)–6(e)(3)(ii) apply for the determining the yearly rate of return.

(4) *Pooled income funds in existence less than 3 taxable years.* The provisions of § 1.642(c)–6(e)(4) apply for determining the highest yearly rate of return when the pooled income fund has been in existence less than 3 taxable years.

(5) *Computation of value of remainder interest.* The factor that is used in determining the present value of a remainder interest that is dependent on the termination of the life of one individual is the factor from Table S in paragraph (f)(6) of this section under the appropriate yearly rate of return opposite the number that corresponds to the age of the individual upon whose life the value of the remainder interest is based. Table S in paragraph (f)(6) of this section includes factors for yearly rates of return from 4.2 to 14 percent. Many actuarial factors not contained in Table S in paragraph (f)(6) of this section are contained in Table S in Internal Revenue Service Publication 1457, ''Actuarial Values, Book Aleph,'' (7–99). Publication 1457 is no longer available for purchase from the Superintendent of Documents, United States Government Printing Office. However, pertinent factors in this publication may be obtained by a written request to: CC:PA:LPD:PR (IRS Publication 1457), Room 5205, Internal Revenue Service, P.O. Box 7604, Ben Franklin Station, Washington, DC 20044. For other situations, see § 1.642(c)–6(b). If the yearly rate of return is a percentage that is between the yearly rates of return for which factors are provided, a linear interpolation must be made. The present value of the remainder interest is determined by multiplying the fair market value of the property on the valuation date by the appropriate remainder factor. For an example of a computation of the present value of a remainder interest requiring a linear interpolation adjustment, see § 1.642(c)–6(e)(5).

(6) *Actuarial tables.* In the case of transfers for which the valuation date is after April 30, 1999, and before May 1, 2009, the present value of a remainder interest dependent on the termination of one life in the case of a transfer to a pooled income fund is determined by use of the following tables:

103

TABLE S—BASED ON LIFE TABLE 90CM SINGLE LIFE REMAINDER FACTORS

ELECTION TO TREAT TRUST AS PART OF AN ESTATE

§ 1.645–1 Election by certain revocable trusts to be treated as part of estate.

(a) *In general.* If an election is filed for a qualified revocable trust, as defined in paragraph (b)(1) of this section, in accordance with the rules set forth in paragraph (c) of this section, the qualified revocable trust is treated and taxed for purposes of subtitle A of the Internal Revenue Code as part of its related estate, as defined in paragraph (b)(5) of this section (and not as a separate trust) during the election period, as defined in paragraph (b)(6) of this section. Rules regarding the use of taxpayer identification numbers (TINs) and the filing of a Form 1041, ''U.S. Income Tax Return for Estates and Trusts,'' for a qualified revocable trust are in paragraph (d) of this section. Rules regarding the tax treatment of an electing trust and related estate and the general filing requirements for the combined entity during the election period are in paragraph (e)(2) of this section. Rules regarding the tax treatment of an electing trust and its filing requirements during the election period if no executor, as defined in paragraph (b)(4) of this section, is appointed for a related estate are in paragraph
